Drawings

The drawings are objected to because in Fig. 5, reference numeral 20 is misplaced. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The disclosure is objected to because of the following: the seal 39, page 9, is not adequately disclosed.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 12 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Manzo.

See screen door 12, tracks 18, rollers 34, locking assembly, Figs. 12-14, latching portion 40, etc., bracket portion 38, and screen mesh 23.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8 and 9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Manzo in view of Winner.

Providing brushes for sealing purposes between slidable panels and tracks is well known, as illustrated by Winner at 87. It would have been obvious to modify Manzo whereby his screen panels have such seal means so as to prevent unwanted insects, particles, etc., from going through the door.

Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Manzo in view of Wentzel.

Wentzel also discloses seals 48 mounted on a slidable panel which engages the track portion 56. It would have been obvious to modify Manzo whereby his screen panels have such seal means so as to prevent unwanted insects, particles, etc., from going through the door.

Claims 10 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Manzo in view of Bengtsson.

Providing a top flap seal and a bottom seal are both well known as illustrated by Bengtsson at 28 and 30, respectively. It would have been obvious to modify Manzo whereby his screen panels have such seal means so as to prevent unwanted insects, particles, etc., from going through the door.

Allowable Subject Matter

Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

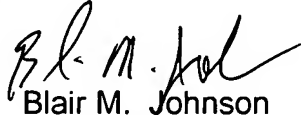

Claim 13 is allowed.
